

Firestore notification:

The screenshot shows the Firebase Messaging console. The left sidebar contains navigation links: Project Overview, Messaging, and Product categories (Build, Release and monitor, Analytics, Engage). The main area displays the 'Messaging' section with tabs for Campaigns and Reports. A table lists campaigns with columns: Campaign, Start, End, Status, Target, Last updated, Sends / Impressions, and Clicks / Opens. The table shows several campaigns, including 'new notification' (Draft) and several 'new notify waking' and 'hello waking' campaigns (Completed).

Campaign	Start	End	Status	Target	Last updated	Sends / Impressions	Clicks / Opens
new notification	No start date	-	Draft		16 Apr 2023	-	-
new notify waking	9 Apr 2023 10:35:58	-	Completed		9 Apr 2023	-	-
new notify waking	8 Apr 2023 23:34:03	-	Completed		8 Apr 2023	-	-
new notify waking	8 Apr 2023 23:22:32	-	Completed		8 Apr 2023	-	-
hello waking	8 Apr 2023 23:15:16	-	Completed		8 Apr 2023	-	-
hello again	8 Apr 2023 22:49:05	-	Completed		8 Apr 2023	-	-
hello waking	8 Apr 2023 21:55:41	-	Completed		8 Apr 2023	-	-

https://pub.dev/packages/firebase_core

The screenshot shows the pub.dev page for the firebase_core 2.10.0 package. The page includes the package name, version, publisher (firebase.google.com), and a list of platforms (SDK, FLUTTER, PLATFORM, ANDROID, IOS, MACOS, WEB). It also displays the package's popularity (2635 likes, 140 pub points, 100% popularity) and a list of links (Readme, Changelog, Example, Installing, Versions, Scores). The Flutter Favorite logo is prominently displayed.
